## Evidence-based Universal Prevention at Local, Regional, and Statewide Levels

PAX programming provides trauma-informed evidence-based prevention strategies for use in the home, school, and community. PAX operationalizes initiatives such as PBIS, Trauma-informed Care, Positive Youth Development, and more. PAX strategies provide all adults who work with or care for young people with skills to facilitate the work they already do - resulting in improved academic, behavioral, and lifetime outcomes.

 **PAXIS Institute** <sup>tm</sup> recommended by...  
*an international prevention science leader*

With PAX Tools and the PAX Good Behavior Game, PAXIS Institute offers evidence-based programming across the youth system of care. Educators, human service professionals, youth workers, caregivers, and more can all benefit from trauma-informed evidence-based strategies for improving academic, behavioral, and lifetime outcomes with PAX.

## School-based Trainings

**PAX Good Behavior Game/PAX Good Behavior Game for Early Childhood/PAX Good Behavior Game for Adolescents** initial training provides teachers and educators with the trauma-informed evidence-based program for use with students in schools and classrooms. **This 6-hour training is available in live virtual, in-person, and self-paced online formats.**

**PAX Next Steps** training provides teachers and educators already trained in PAX with updated strategies, procedures, and integrations for implementing PAX in the classroom. **This 6-hour training is available in live virtual, in-person, and self-paced online formats.**

**PAX Heroes** training provides teachers and educators already trained in PAX with additional strategies for supporting students with more intensive behavioral needs. **This 6-hour training is available in live virtual and in-person formats.**

**PAX Partner** training provides teachers, educators, and other internal and external supporters previously trained in the PAX Good Behavior Game with guidance to initiate, sustain, support, and expand PAX implementations. **This training is available in-person or in a 6-hour live virtual session with an additional 4 hours of self-paced content.**

## Community-based Trainings

**PAX Tools for Community Educators** provides training for community, health, and parent educators to become certified to present PAX Tools Community Workshops for parents and caregivers in their community. PAX Tools Community Workshops provide adults with trauma-informed evidence-based strategies to improve relationships and self-regulation. **This 8-hour training is available in live virtual and in-person formats.**

**PAX Tools for Human Services** provides trauma-informed evidence-based behavioral strategies for human service professionals who work with children and adolescents in their professional settings. These strategies promote the development of self-regulation, reduce conflict, and improve relationships. **This 6-hour training is available in live virtual, in-person, and self-paced online formats.**

**PAX Tools for Youth Development** training provides trauma-informed evidence-based strategies for full-time youth development professionals and others in out-of-school time. This training is consistent with Positive Youth Development. **This 6-hour training is available in live virtual and in-person formats.**

**PAX Tools for Youth Workers** provides youth workers and part-time staff with trauma-informed evidence-based strategies tailored to the youth work setting. This training is ideal for part-time, volunteer, and youth worker staff. **This 4-hour training is available in live virtual, in-person, and self-paced online formats.**

**PAX Tools for Caregivers** provides parents, grandparents, foster parents, kinship care providers, and other caregivers with trauma-informed evidence-based strategies to support the children in their care. **This 2.5-hour workshop is available in live virtual and in-person formats.**

All trainings are available in live virtual, in-person, or self-paced online formats.  
All trainings include all materials to implement as well as ongoing access to online resources.
